8

In India, as Hindi or other languages are spoken as mother tongue, the foreign language or culture, even if it is dominant, cannot make these languages inferior under any circumstances. The roots of Indian languages and culture are still deep to keep up with new scientific and technological developments. Moreover, India is always follower of the principle of 'Vasudhaiva Kutumbkam' which means that the whole earth is like a family and this is wonderfully proved by the framers of the Constitution who, while framing the Constitution of India, after Independence, unhesitatingly, adopted the best of all the Constitutions in the world according to requirement of our country. In addition to that, we should not forget the immortal words of the Father of the Nation. Mahatma Gandhi who said, "Let all door and windows of my house be open. Let the air of different cultures of the world freely move through my house. But let my feet be firmly rooted in my own soil because I do not wish to be blown off by that air." At present, it is the need of the hour to strengthen the foundation of values and attitude in the lives of our younger generation so that they can culture and accept whatever may lead them ahead to progress in their life.

4. (A) Correct any **five** sentences from given below and rewrite them after rectification. **10**
